## LETTER

From a Hindu Philosopher, residing in Philadelphia, to his friend in Delhi.

Beloved El Hassan,

The attention which I have lately paid to the subject of Hindu and American poetry, infensibly led me to a perusal of the sacred books of this country, which I had often heard commended as containing the first instances of poetical grandeur & beauty. My labor has met its complete reward, in the pleasure which I have experienced from the discovery of several complete books of poetry in these sacred writings, and of numerous passages, scattered up and down, among prosaic performances, which, from this very circumstance, shine with peculiar beauty and splendor.

A short pastoral poem, entitled "The Song of Solomon," which in its literal sense, is a celebration of mutual love; a reciprocal and highly elegant description of the graces and beauties of the lovers; and a rich poetical painting of the pastoral scenes in which their loves are to be enjoyed; considered in its literal meaning it is a most elegant and charming pastoral. It has all the simplicity of nature, both in language and sentiment, without ever encroaching upon the limits of delicate purity. The person of the lovers are beautiful, graceful, and lovely, as they came from the hand of nature, without the decorations of splendid ornament, or the blandishments of artificial manners. Their sentiments are natural, glowing and tender; and their mutual affection and aspirations after each other's society, are warm and impassioned in the highest degree. The scenery is rich, brilliant and poetical. The objects mentioned are those which char every eye and sooth every heart; the delicacies and beauties of nature are brought into one view, which presents whatever can delight the sense and charm the heart. The style is simple, but harmonious and elegant. With all these advantages, it cannot fail to interest a lover of nature of whatever religion or country.

But these advantages, are, in the view of the Christians, the least which it has to boast. Their most learned and pious Brahmins agree in opinion, that this beautiful poem is merely a figurative expression of the reciprocal love of Christ and his Church; and as such they read it with the most devout sentiments, while the profane consider it as being the effusion of the uxorious and poetical mind of Solomon, which delighted in the contemplation of love and poetry. I confess I am of opinion that the literal meaning is not the true one; if it was really the daughter of love and poetry, why has it found a place in a collection of writings, whose principle object appears to be the subjugation of every natural propensity, to the dominion of the soul? Thou, my friend, who has often perused the pages of Hindu and Persian poetry, knowest that many of the most important doctrines of the religions of Persia and Hindustan, are conveyed in poetical numbers, and in a figurative style. The literal meaning often appears voluptuous, but the mystical is holy and elevated. All the charms of society, of love and of wine, are drawn in to assist the fervor of religious affections; and while the imagination of a voluptuary would revel in intellectual luxury, the religious mind soars on the wings of rapture to the great first cause.

But whichever opinion may be correct, with respect to the Song of Solomon, I was instantly struck by the familiarity of the design to that of the Gitagovinda of our charming lyric poet Jayadeva. This thou wilt remember, is a pastoral drama, drawn from the tenth book of the Raghavat, in which are celebrated the lovers of Christina (called also by several other names) and Radha; or, as our Brahmins interpret it, "the reciprocal attraction between the Divine goodness and the human soul." Thou, my dear El Hassan, hast been present with me at Calinga, the reputed native place of Jayadeva, where the people "celebrate in honor of him, an annual jubilee, passing a whole night in representing his drama, and in singing his beautiful songs." There we have heard the mellifluous numbers of this delightful poet, while the moon has listened in the heavens, and the songsters of night have sung responsively from the groves. The poetical painting of the Gitagovinda is rich and splendid. The colors are glowing, yet tempered with that mild radiance which sooths and relieves while it delight

the eye. The descriptions are particular, and therefore precise. The tree, the flower, and the rivulet, stand forth to the eye; every object is painted in its own appropriate colours; there is no unmeaning rhapsody and obscure daubing, but every part is perfect in itself, and maintains a just relation to the whole. The characters, particularly the two principal ones, viz. Christina and Radha, altho singular and out of the common course of life, are consistent with themselves, and carry such marks of identity, that they are instantly known wherever they occur. There is one remarkable difference between the Hindu and American taste. The Hindus have no idea that any thing which is natural can be offensively obscene; hence the images, statues and paintings of Hindustan exhibit the human person without reserve; those parts, which modesty or guilt induces all civilized and most barbarous nations to conceal, are by them exposed, in their monuments of sculpture and painting, with no more scruple than the hands, the arms, and the face.

This practice, which may be indicative of great purity or excessive corruption, originates from a set of feelings and ideas, which exert a kindred influence over every thing which the Hindu says or does. Hence, in our poetry there is often found a luxuriance of description, which, to nations who have been accustomed to a different course of thinking upon these subjects, appears extremely wanton and voluptuous.

The Gitagovinda of Jayadeva falls under this imputation in a certain degree; altho these instances in which it would be censured by the American taste, are probably less censurable than the greater number of parallel instances from other Hindu and Persian poets. In order, my dear El Hassan, that thou mayest be able to form a comparison between the famous Gitagovinda and the Song of Solomon, I shall in a future epistle, extract some passages from each, that by seeing specimens of both these favorite poems together thou mayest be able to form a parallel, or contrast, between them. But I must be allowed to extract more or less copiously, as the feelings of the moment may dictate; for upon poetical subject I often throw the reins upon the neck of feeling, and suffer myself to be hurried wherever it leads; reason, however, is always at hand to curb the excesses of passion, and the wanderings of imagination. With unceasing affection, I am, my dear El Hassan,

Thy faithful Friend,

SHAHCOOLEN.

KINGSTON, (Jam.) September 26.

The ship Atlantic, Bulman, which arrived on Friday se'night from N. York, with a cargo of naval stores, &c. was chased off the east end by two Spanish latteen rigged privateers. The one to windward perceiving her consort to make up fast with the Atlantic, hauled her wind and stood off; the other continued to give chase until within a quarter of a mile of Point Morant. Capt. Bulman then made a signal to two vessels which were in sight (which however was not taken notice of) and then fired a gun and hoisted his union jack. This induced the captain of the privateer to pause a little; but he soon began to chase again, and gained fast upon the Atlantic, when she fired into him. From this circumstance, supposing the Atlantic to be of considerable force, she stood off, after a chase of seven hours, although within hail. The Atlantic had but two 4 pounders and 8 men.

The American brig New Adventure, from the Havana to Boston, with a cargo of sugar, detained by his majesty's ship Circe, arrived on Sunday evening.

We are extremely sorry to learn that the Cerberus, during her cruise, has lost her first lieutenant and 26 men, by a fever which has raged on board of her ever since within a few days of her leaving Port Royal. The second and third day of her cruise they captured a Spanish felucca privateer, and put a midshipman and 11 seamen on board her, that have never since been heard of.

The brig Dove, Austin, and sch'r Lydia, Cotton, have sailed from Savanna-Mar, for New-York.

The ship Princess of Wales, Campbell, anchored here last Wednesday from Falmouth; and will sail on Monday or Tuesday next for New-York, in Co. with the ship Bellona, for Savanna.

September 28.

Sailed, sch'r Eliza Ann, Rofs, Norfolk.

Saturday arrived at Port Royal, an

American brig from Philadelphia to St. Jago de Cuba, detained by his majesty's ships Lark, and Garland: by her we learn that the privateer taken by the boats of the Lark, is one of the number that infested this coast. She is a sch'r and called L'Eparenza, mounts 3 guns and had 50 men, 14 of whom were killed in the action with the boats and six wounded. The boats had two killed and ten wounded. The privateer sails remarkably fast and is employed as a tender to the Lark now cruising off Cuba.

BOSTON, November 6.

Last evening arrived brig Sea-Flower, Williams, 43 days from Malaga, via Gibraltar. We are favored with the papers of the latter place to Sept. 18.

OF EGYPT.

On the 10th of September the frigate Leda arrived at Gibraltar in 42 days from Egypt. Alexandria had not surrendered when she failed. General Menou had abruptly and indignantly rejected the proposal in the 20th article of the convention with the troops at Cairo. His garrison consisted of but 4,100; and most of the French soldiers were extremely desirous of returning home. It is estimated there were 25,000 British troops in Egypt.

Gibraltar, September 18.

Rumours from Spain have reached the garrison, importing that gen. Menou, has surrendered Alexandria to the British forces—that all the French troops are now out of Egypt; and that lord Keith is on his way down the Mediterranean. But we wait for a confirmation of this highly probable and agreeable intelligence.

Capture of a Tripolitan cruiser.

Extract of a letter from commodore Dale, commanding a squadron of frigates in the service of the United States, to Mr. Gavino, American consul in Gibraltar, dated Malta, 19th August.

"I am happy to inform you that Mr. Sterett, in the schooner Enterprize, of 12 guns, and 90 men fell in with one of the Tripolitan cruisers off this island. She mounted 14 guns and 80 men. He took her after an action of three hours, killed 20 of her men, and wounded 30. Not a man hurt on board the schooner. The Bey's cruisers have not taken any of our merchant vessels as yet."

The frigates Essex and Philadelphia, failed from Malaga the 13th of September, to join the commodore off Tripoli. All the frigates were in want of provisions, and there was none to be had at Malaga or Gibraltar. It was expected the commodore would leave a frigate to blockade Tripoli, and repair himself to Gibraltar for provisions, &c.

The frigate George Washington, with the ship Peace and Plenty under convoy, arrived at Gibraltar September 19, and sailed for Algiers the 21st, intending to stop at Malaga for water. Brig Levant, Bradford, of Boston, and Susan, Wheeler, of Baltimore, failed in company with the frigate.

The Tripolitan admiral and the brig were still at Gibraltar, dismantled and deserted by their crews.

It was reported at Gibraltar, that the plague had again appeared in Spain; in consequence of which a quarantine of five days was laid on all vessels from Spain. The king of Spain was very ill.

Left at Gibraltar, sch'r —, Hooper, of Marblehead; Mary, Ward, of Boston, waiting trial; ship Apollo, Thurston, of Baltimore, ditto; Pomona, Myers, New-York, bound up; sch'r Charlotte, Haynes, of Baltimore, condemned for attempting to enter Cadiz. An English fleet of 15 sail of the line, under admiral Pole, was off that place.

Several inward bound vessels anchored yesterday in the Light-house Channel, among them was the brig Sea-Flower, Williams, from Malaga (passage supposed to be 43 days); several topsail schooners, and a large double-decked yellow sided brig.

NEW-YORK, November 11.

Captain Crocker of the ship Mary who arrived at this port yesterday from Cork, informs us that on the 30th of September he spoke the brig Jane Allen, bound from Dublin to Boston, who on the 25 of the same month, in lat. 47. 18. long. 32. 11. fell in with the ship Nonpareil, captain Rossiter, from Bristol to New-York (belonging to Messrs. William and Joseph Cowley) and took out the crew and about 30 passengers. She had proved so very leaky that they found themselves unable to keep her from filling and were obliged to desert her for their own preservation,

By the ship Mary from Cork we have received Papers of that city to the 7th September. They contain no political or commercial intelligence excepting the following state of the Market:

Markets at Cork, Sept. 7.

Old Oats, at 36s per barrel of 33 stone — New do, 30s per do. — Old Wheat, 36s, per bag of 20 do. — New do. 29s to 34s per do. Oat Meal, 3s per peck or 28 lb. Barley Meal, 2s per do. of do. Potatoes 5d to 7d. per wt. Fresh Butter, 11d to 13d per pound. Beef 5d to 7d per pound; Mutton 6d to 7d per lb.

Capt. Annabel, arrived yesterday morning in 31 days from Jeremie, informs, that that port was shut against neutral vessels; but it was expected by the merchants of the place, that it would be opened again in a few days.

Arrived, ship Ocean, Howland, Liverpool; Charlotte Mardock, Walker, Madeira; Hero, Hammond, Cayenne; Mary, Crockett, Cork; brig Diana, Williams, Turk's Island; sch'r Polly, Jamaica; Eagle, Trapp, ditto; Polly, Annable, Jeremie; Dorothy, Sheppard, Virginia; John, Croell, St. Croix; Hu. dibrafs, Wilson, ditto; Betsey, Williams, North Carolina.

Cleared, brig Augustus Washington, Mitchell, Amsterdam; sch'r Determined Rover, Fuller, Curacao; Fair Play, Ropes, St. Sebastians.

The sloop Charlotte, Baker, belonging to Connecticut, is captured by the Spaniards and carried into Porto Rico.

The ship Charlotte Mardock, spoke a large ship from Philadelphia, could not learn her name or where bound, lat. 36, long. 72.

The ship Ocean, from Liverpool, spoke in lat. 41, 54, long. 56, ship Polly, Hancock, from Boston to Malaga. Oct. 17, spoke ship Resource, from Road-Island bound to Amsterdam, lat. 41, 54, long. 56, 30.

Brig Diana, Williams, (formerly Schuyler, who died on the 21st Oct.) from Turk's Island, informs that American produce was very low, prime beef selling at 6 dollars and 50 cents.

Sch'r Betsey Williams, from Edington, N. C. bound to Boston, but sprung her foremast, and was obliged to put into this port.

Sch'r Arifrides, from Port-Republican, spoke, 4 days since the sch'r. Mary, 14 days from Turk's Island for this port—having thrown over 500 bushels of salt in bad weather.

Ship Mary, Crocker, from Cork, Sept. 30th spoke brig Jane, then out 11 days from Dublin, bound to Boston. October 7, spoke brig William, bound from Newfoundland to Gibraltar, out 10 days. Sch'r. Eagle, Trapp, from Jamaica. In lat 23, spoke brig Hope, out 10 days from Jamaica, bound to Boston. (Our Jamaica papers by the Eagle are to the 10th October.)

PHILADELPHIA, Nov. 12.

Arrived, ships Charlotte, Ennis, Norfolk; Rising States, Williams, Havana; sch'r's Abigail, Bantam, Newbern, N. C. Wealthy, Hand, Richmond; sloop Polly, Luce, Boston.

Ship Richmond, Walters, failed from Batavia the 20th July in company with the brig Fame, Van Bueren, of and for Baltimore. Left there the ship Belvidere, of and for this port to fail in a few days, and brig Globe, of this port, going to the eastward.

NASHVILLE, October, 22.

Extract of a letter dated 26th September 1801, in the Chickasaw nation, from — to a correspondent of this place.

"I find the minds of the Indians much agitated indeed. Capt. Butler's measures and marking the paths leading from Nashville to the mouth of Bear creek, without the knowledge or consent of any of the nation, together with the movement of col. Butler's regiment to Mero district, in so circuitous a route, as by the way of Wilkinsonville, from South West Point, excite their alarms, and they cannot comprehend the reason involved in such a measure. They appear to be quite tenacious of their rights, and view these proceedings, at any rate as infringements of the treaty between them and the United States.

I doubt government has been premature in their movements, and that their designs

in the pending treaty, will prove abortive. The minds of the Indians ought certainly to have been prepared, and the agents notified of the intention of government. The commissioners have defended the river for the Chickasaw Bluffs, and we may calculate, on hearing, shortly, the result of the conference. I give it however as my opinion, that they will neither sell land, or permit the cutting of the road or roads."

### Alexandria Advertiser.

MONDAY, NOVEMBER 16.

### SPANISH ATROCITY.

The veracity of the statement respecting the imprisonment of the American consul at St. Jago de Cuba, has been denied by some, and doubted by many. In addition to the information we have already published on this infamous and outrageous transaction, we subjoin an extract of a letter received in this city, from the most respectable and authentic source. It will appear from this, that the fact as heretofore stated, is substantially true; and that it was accompanied with every circumstance of indignity and violence towards the authority of the United States. It is not a personal affair of the consul—it is a daring attack on an official character, esteemed, in all civilized countries, inviolable, and free from arrest, except upon a charge of some capital offence.

We learn also, that American property in that island is in universal jeopardy—that the American character is contemned and abused—and that, generally, a marked and barbarous hostility to our rights and interests is every where prevalent.

It is impossible to impute the present conduct of the Spanish nation and its agents to any plausible or equitable motives. A system of warfare, the most insulting and savage, is adopted by them—not in St. Jago de Cuba alone—not only at Algiers—it extends with equal violence add atrocity, to every spot of territory, in which Americans unfortunately fall into their power. It is practiced either in open contempt of the law of nations or under the fraudulent mask of unjust requisitions. We trust, and sincerely hope, that such outrages, committed under the very nose of our government, will not long escape deserved retribution.

Extract of a letter from St. Jago de Cuba, dated October 5.

"On the 18th ult. by order of the Governor and Council of this place, (who were commanded by their superior the Independent General of the Island, residing at Havana) the stores, dwelling-house, and office of the American Consul, were closed—the keys taken possession of by the government—his person arrested, and thrown into the common prison."

Phil. Gaz.

Extract of a letter from Mr. Curtis Crane, mate of the brig James, of Hartford, to his owners, dated September 24th, 1801, at Sandy Point, St. Kitts.

"I take this opportunity to inform you of my arrival at Barbadoes, with the James, after a passage of 46 days, also of the death of capt. Thomas Smith, on the 10th of August, after a distressing illness of 10 days; his disorder was the black fever, which we suppose he took on board the privateer that robbed us in the Gulf of one ox, one bbl. of beef, one bl. corn, three firkins lard, seven calk

water, our cloaths, all our small stock, and threatened us with instant death, if we did not obey them in every respect."

Michael Krafft, of Morris-Ville, Penn. opposite Trenton, has made an improvement in the form and construction of Stills, which promises to be of considerable emolument to himself, and of great utility to the public. Mr. Krafft has obtained a patent for his improvements from the president of the United States.

From a late London Paper.

### THE MIRAGE.

Monge gives the following description of a singular optical illusion, called the Mirage:

"The country of lower Egypt is nearly a level plain, which loses itself, like the sea, in the clouds at the extremity of the horizon. Its uniformity is only interrupted by a few eminences, either natural or fictitious, on which are situated the villages, thus kept out of the inundations of the Nile; and these eminences, less usual on the skirts of the desert, tho' frequently to be seen on the Delta, and which appear like a dark line on a very transparent sky, are rendered still further visible by the date trees and sycamores, oftener to be met with in such situations than elsewhere.

"Both morning and evening the aspect of the country is exactly as it ought to be; and between you and the last villages which present themselves you perceive nothing but land; but when the surface of the earth is sufficiently heated by the rays of the sun, and indeed untill it begins to get cold towards the evening, the land no longer seems to have the same extension, but to be terminated, to within the distance of a league, by a general inundation.

"The villages placed beyond that appear like so many islands stationed in the middle of a great lake, from which the spectator is separated by an extent of land, more or less considerable according to circumstance. You then behold the image of each of these villages reflected exactly as if it were exhibited on a clear surface of water, with only this difference, that as the representation is at a considerable distance, the objects are invisible, and the masses alone distinct; in addition to this, the edges of the reversed image are rather ill defined and such as they would be if the surface of the reflecting medium happened to be a little agitated.

"In proportion as one approaches a village, which appears to be placed in the midst of an inundation, the margin of the water seems to recede, and the arm of the sea, separating you as it were from the village, shrinks back by degrees: it at length disappears entirely, and the phenomenon, which now ceases in respect to the first village, is instantly reproduced by a new one, which you discover at due distance in the rear."

### VALUABLE MEDICINES.

#### SAMUEL BISHOP, STATIONER and BOOKSELLER,

Respectfully informs the public that he has received a fresh supply of the following esteemed Medicines from Lee and Co. Baltimore, who have appointed him their only Vender in Alexandria.

#### HAMILTON'S WORM DESTROYING LOZENGES. FOUR YEARS

Have scarcely elapsed since the introduction of HAMILTON'S WORM DESTROYING LOZENGES into general use, yet in this short period upwards of

One Hundred and Twenty Thousand Persons of both sexes, of every age, and in every situation have received benefit from this extraordinary remedy, in various complaints arising from worms and from obstructions in the stomach and bowels.

This medicine, which is as innocent and mild as it is certain and efficacious in its operation, cannot injure the youngest infant, or the most delicate pregnant lady, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, removing whatever is foul or offensive within, particularly that slimy humor from whence worms and many fatal disorders proceed.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

A dose of this medicine given occasionally will effectually prevent the vomiting and purging of children, a dreadful disorder which annually destroys thousands of the infant part of our cities. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

The celebrity acquired by the Worm Lozenges, particularly in the city of Baltimore, renders the further publication of certificates in their favor, an unnecessary expense.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body, are chiefly of four kinds, viz. the Teres or large round worm, the Ascarides, or small maw worm, the Cucurbitina, or short, flat, white worm, and lastly, the Tænia, or tape worm, so called from its resemblance to tape; this is often many yards long, and is full of joints—it is most hurtful, and most difficult to cure.

Among the symptoms attending worms, are, disagreeable breath, especially in the morning—Bad and corrupted gums—Itching in the nose and about the seat—Convulsions and epileptic fits, and sometimes privation of speech—Starting and grinding of the teeth in sleep—Irrregular appetite, sometimes loathing food, and sometimes voracious—Purging, with slimy and fetid stools—Vomiting—Large and hard belly—Pains and sickness at the stomach—Pains in the head and thighs, with lowness of spirits—Slow fever, with small and irregular pulse—A dry cough—Excessive thirst—Sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to HAMILTON'S WORM DESTROYING LOZENGES, which have been constantly attended with success in all complaints similar to those above described.

#### Hamilton's GRAND RESTORATIVE,

Is recommended as an invaluable medicine, for the speedy relief and permanent cure of the various complaints which result from dissipated pleasures—juvenile indiscretions—residence in climates unfavourable to the constitution—the immoderate use of tea, frequent intoxication, or any other destructive intemperance—the unskillful or excessive use of mercury—the diseases peculiar to females, at a certain period of life—bad lyings in, &c. &c.

And is proved by long and extensive experience to be absolutely unparalleled in the cure of

Nervous disorders, Violent cramps in the stomach and back, Consumptions, Indigestion, Lowness of spirits, Melancholy, Loss of appetite, Gout in the stomach, Impurity of the blood, Pains in the limbs, Hysterical affections, Relaxations, Inward weakness, Seminal weakness, Involuntary emissions, Foliar albus, (or white) Obsolete gleets, Barrenness, Impotency, &c. &c.

The principal operations of this remedy is in the stomach, restoring the digestive powers, and sending from that organ new health and vigor into every part of the system; it enriches and purifies the blood without inflaming it; braces, without stimulating too violently the nervous system; strengthens the secretory vessels and the general habit; brings back the muscular fibres to their natural and healthy tone; and restores that nutrition which immoderate evacuations have destroyed, and whose loss had thrown the whole frame into languor and debility.

The Restorative is absolutely above all recommendation in removing those weaknesses and infirmities with which many females are afflicted, the consequences of difficult and painful labours, or of injudicious treatment therein.

The most obstinate seminal gleets, and the most distressing cases of fluor albus in females, fall particularly under the province of this restorative—speedily yield to its benign operation, and are radically cured, by correcting and purifying the acrimonious humors, restoring a proper degree of tension to the relaxed fibres, and strengthening the weakened organs.

In cases of extremity, where the long prevalence and obstinacy of disease has brought on a general impoverishment of the system, excessive debility of the whole frame, and a wasting of the flesh, which no nourishment or cordial could repair, a perseverance in the use of this medicine has performed the most astonishing cures.

#### Dr. HAMILTON'S ESSENCE AND EXTRACT OF MUSTARD,

A safe and effectual remedy for rheumatisms, gout, palsy, sprains and bruises, white swellings, old strains, and relaxations, numbness and weakness of the joints, stiffness of the neck, pains of the side, head ache, swelled faces, frozen limbs, and every similar complaint. It prevents chilblains, or chopped hands, and the ill effects of getting wet or damp in the feet.

The extract is celebrated for removing cold & windy complaints in the stomach and bowels—flying pains, and other spasmodic affections.

The testimony of thousands, and daily experience, sufficiently prove the superiority of the above medicine over all others, in the cure of the maladies we have enumerated.

#### Dr. HAMILTON'S ELIXIR,

A sovereign remedy for Colds, Obsolete Coughs, Asthmas, Catarrhs, Sore Throats, and Approaching Consumptions.

To parents who may have children afflicted with the HOOPING COUGH.

This discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorder to which children are liable—the Elixir is perfectly agreeable and the dose so small, that no difficulty arises in taking it.

#### Dr. HAHN'S ANTI-BILLIOUS PILLS.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation, and of every age.

They are excellently adapted to carry off superfluous bile, and prevent its morbid secretions—to restore and amend the appetite—to procure a free perspiration, and thereby prevent colds, which are often attended with fatal consequences—a dose never fails to remove a cold, if taken on its first appearance. They are celebrated for removing habitual costiveness—sickness at the stomach, and severe head ache—and ought to be taken by all persons on a change of climate.

#### The SOVEREIGN OINTMENT for the ITCH,

Which is warranted an infallible remedy at one application, and may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury, or any other dangerous ingredient whatever, and is not accompanied with that tormenting smart which attends the application of other remedies.

#### The GENUINE PERSIAN LOTION,

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals (the basis of other lotions) and of unparalleled efficacy in preventing and removing blemishes in the face and skin of every kind, particularly freckles, pimples, inflammatory redness, scurfs, tetters, ring worms, sun burns, prickly heat, premature wrinkles, &c. rendering the skin delicately soft and clear, improving the complexion, and restoring the bloom of youth.

#### The DAMASK LIP SALVE.

The RESTORATIVE POWDER for the TEETH and GUMS.

#### Dr. HAHN'S TRUE and GENUINE GERMAN CORN PLAISTER.

An infallible remedy for corns, speedily removing them, root and branch, without given pain.

#### Dr. HAHN'S GENUINE EYE WATER.

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident, deflections of rheum, dullness, itching and films on the eyes, never failing to cure those maladies which frequently succeed the small pox, measles and fevers, and wonderfully strengthening a weak sight. Hundreds have experienced its excellent virtues, when nearly deprived of sight.

#### TOOTH-ACHE DROPS.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

#### The ANODYNE ELIXIR,

For the cure of all kinds of Head-Ache.

#### CHURCH'S COUGH DROPS.

INFALLIBLE AGUE and FEVER DROPS. For the cure of Agues, Remittent and Inter-mittent Fevers.

### VENEREAL DISEASE.

Those whom this may unfortunately concern, are informed that a supply has now been received of

#### THE PATENT INDIAN VEGETABLE SPECIFIC, Prepared by Dr. Leroux.

The experience of several thousands who have been cured by this medicine (a great proportion of them after the skill of eminent physicians had proved ineffectual) demonstrate its efficacy in expelling the Venereal Poisons however deeply rooted in the constitution, and in counteracting those dreadful effects which often result from the improper use of mercury.

The mildness of the Vegetable Specific is equal to its surprising efficacy, its operation is so gentle that it is given to venereal patients in a state of pregnancy, with the utmost safety, and performs a cure without disturbing the system, or producing any of those disagreeable effects inseparable from the common remedies.

With the medicine is given a description of the symptoms which obtain in every stage of the disease, with copious directions for their treatment, so as to accomplish a perfect cure in the shortest time, and with the least inconvenience possible.

#### ANDERSON'S PILLS.

#### GOWLAND'S LOTION.
